

The 14 Assemblies are sub-divisions of the American Thoracic Society composed of members with similar interests within the fields of respiratory, critical care and sleep medicine. You can join one Primary Assembly and up to two Secondary Assemblies.

## Assembly members can join:

**Sections** organized around topics that cut across ATS. There are 3:

**And Interest Groups.** These groups are defined as a community of ATS members with an interest in networking and advancing a specific area of knowledge, health care or research initiative, or technology within the areas of Pulmonology, Critical Care, and Sleep Medicine

**Working Groups** designed to facilitate collaboration, gain knowledge and identify learning gaps

**Members are eligible for over 40 Annual Assembly Awards** given to members at the International Conference

## The Assemblies Teaching Competition

is a great way to show off your teaching skills, represent your Assembly, and win \$\$! Finalists will present at the International Conference.

### 14 ATS Assembly Mentoring Programs:

Opportunity to be mentored by Assembly Executive Committee members. This program is designed for early career professionals, junior members, fellows and trainees.
